

## eCTAS Release Notes: Version 2.38.0.0

Release Date: June 18, 2026

Integrations: **B** - Basic **C** - Complex **WS** - Web Service **CRT** - Certification

Change Type	Details	B	C	WS	CRT
User Interface (UI) Changes	<b>Confirmation pop-up when discarding drafts</b> <ul style="list-style-type: none"> <li>A new confirmation pop-up has been added when the 'Discard draft' button is clicked on the Patient Presentation or Triage Assessment screen. The confirmation allows nurses to verify the deletion or continue editing if the button was clicked in error.</li> </ul>	✓	✓		
	<b>Site Role Management</b> <ul style="list-style-type: none"> <li>The Registered and Not Registered user lists now update automatically when a Facility Role Administrator makes a change. When roles are added or removed for a user the changes are visible in the list view without reloading the page. When one or more roles are added for a new user, the user is removed automatically from the Not Registered user list. When all roles are removed for an existing user, the user is automatically removed from the Registered user list.</li> <li>When adding a new role for a user, the Facility Role Administrator will only be able to choose from sites that the selected user has access to according to their ONE ID settings. This change will make it easier for Facility Role Administrators to tell when a ONE ID is not configured correctly.</li> </ul>	✓	✓	✓	✓
	<b>Administration Console</b> <ul style="list-style-type: none"> <li>The tool that allows Ontario Health administrators to manage Conformance and Clinical Validation test phases has been updated. This tool is not visible to hospital users.</li> </ul>	N/A	N/A	N/A	N/A

Change Type	Details	B	C	WS	CRT
Bug fixes	<b>eCTAS Clinical Application</b> <ul style="list-style-type: none"> <li>Fixes have been made to prevent deleted drafts from being accessed using the browser back button. This prevents errors from occurring when attempting to save the deleted document. In addition to these fixes, confirmation popups have been added to help protect against accidental deletion of drafts.</li> </ul>	✓	✓		
	<b>Previous Visit Lookup</b> <ul style="list-style-type: none"> <li>An error that occurred if the previous visit lookup failed has been addressed. Any failures when looking up previous visit data will return no results but will not impact the triage that is in progress.</li> </ul>	✓	✓		
	<b>Site Level Extract</b> <ul style="list-style-type: none"> <li>An error that could prevent the download of large files has been addressed.</li> </ul>	✓	✓	✓	✓
	<b>Test Result Report</b> <ul style="list-style-type: none"> <li>A time zone conversion error that blocked the use of the Test Date Starting and Test Date Ending filters after 8pm has been corrected.</li> </ul>		✓	✓	✓
	<b>Administration Console</b> <ul style="list-style-type: none"> <li>A new error page has been added so that if an error does occur it's not necessary to re-launch the Administration Console.</li> </ul>	✓	✓	✓	✓
Performance Improvements	<b>Performance improvements</b> <ul style="list-style-type: none"> <li>Updates have been made to HL7 Message Viewer to help improve performance when loading large amounts of data.</li> <li>The queue refresh in the eCTAS Clinical Application has been optimized to help patient queues load faster.</li> </ul>	✓	✓		

Change Type	Details	B	C	WS	CRT
	<p><b>System upgrades</b></p> <p>System component upgrades and instrumentation enhancements have been made to ensure ongoing system stability and security.</p>	✓	✓	✓	✓
