Change Type	Details	B	C	WS	CRT
User Interface (UI) Changes	Nurse Notifications <ul style="list-style-type: none"> Infection Control screening updates from Public Health Ontario and important eCTAS application notices will be shown directly to nurses through a new minimally intrusive notification popup. Message details are available by clicking a bell icon at the top right of the screen. 	✓	✓		
	End User License Agreement Acceptance Screen <ul style="list-style-type: none"> The screen presented to new users after accepting the End User License Agreement (EULA) has been redesigned to more clearly show the next step for gaining access to the eCTAS application or Administration Console 	✓	✓	✓	✓
	eCTAS Helpdesk email <ul style="list-style-type: none"> The eCTAS Helpdesk email has been updated to the new Ontario Health email account. This appears on the error and information pages within the eCTAS Clinical Application and Administration Console. 	✓	✓	✓	✓
	Administration Console <ul style="list-style-type: none"> A new tool that allows ATC administrators to manage notifications has been added. This tool is not visible to hospitals users. 	N/A	N/A	N/A	N/A
Bug Fixes	I'm Done Triage button disabled after overriding CTAS score <ul style="list-style-type: none"> A workflow process that disabled the I'm Done Triage button has been resolved. The I'm Done Triage button 	✓	✓		

	is now re-enabled if an override is cleared when entering a vital reading triggers a higher score.				
	<p>Reassessment data is not updated in the Triaged Patients Queue</p> <ul style="list-style-type: none"> An issue that occasionally resulted in reassessment data not being reflected in other nurses' Triaged Patients Queue has been addressed. 	✓	✓		
	<p>Web service episode submission fails with 500 response</p> <ul style="list-style-type: none"> Episode validation errors that previously caused the web service to return a 500 response will now return a 200 response and a description of the error. 			✓	✓
Performance Improvements	General performance upgrades have been made to ensure system stability.	✓	✓	✓	✓
