

Release Notes: Version 2.9.0.0 (Database Version: eCTAS 2017 v 1.1)

Release Date: March 19, 2019

Note: Nurses may need to [clear their browser cache](#) if changes are not immediately visible in the eCTAS application. In Google Chrome:

- Navigate to **Settings>More Tools>Clear Browsing Data**
OR click and hold **Ctrl + Shift + Delete** on your keyboard
- Select the Time Range **All time**
- Click the **Advanced** tab in the dialog box that appears
- Ensure only **Cached images and files**, and **Hosted app data** are checked
- Click **Clear Data**
- Close and reopen your browser window, and login to eCTAS

Note: Additional details on the eCTAS 2017 v1.1 database update were outlined in the [What's New in eCTAS 2017 v1.1](#) call (Feb 5, 2019). Slides and a recording are available on the [ATC Information Site](#).

Note: The information below highlights some of the important changes made to the database. Label changes, additions and deletions are part of this update. A complete list of the exact changes made can be requested by hospitals.

Integrations: **B** - Basic **C** - Complex **WS** - Web Service **CRT** - Certification
